## Education

**Galgotia College of Engineering and Technology**

*Bachelor of Technology in Computer Science (SGPA: 8.11)*

**Uttar Pradesh, India**

*Sep. 2023 – Oct 2027*

## Technical Skills

**Languages:** C, C++, HTML, CSS and JavaScript.

**Frameworks and Libraries:** React.js, Express.js and Node.js.

**Databases:** MongoDB.

**Developer Tools:** VS Code, Git, Github, Postman.

## Projects

**E-Commerce Webside | React.js, Node.js, MongoDB, Express.js**

[GitHub](#) | [Preview](#)

- Built a full-stack e-commerce platform using **MongoDB, Express.js, React**, and **Node.js**, incorporating **React Context** for centralized state management and maintaining clean, **modular code architecture**.
- Integrated comprehensive e-commerce functionalities including **user authentication, product catalog, shopping cart, checkout process**, and **admin dashboard** with **role-based access control** for managing **inventory, orders, and user accounts**, ensuring **successful deployment** and optimal user experience.
- Developed robust backend infrastructure with **RESTful APIs, database schema design**, and **server-side validation**, ensuring secure data handling and efficient communication between frontend and backend services.

**Social-Media Webside | React.js, Node.js, MongoDB, Express.js**

[GitHub](#) | [Preview](#)

- Developed a dynamic social media application using **MongoDB, Express.js, React**, and **Node.js**, implementing **Redux** for global state management and maintaining **scalable, component-based architecture**.
- Built robust backend infrastructure with **RESTful APIs, Clerk authentication** for secure user login/signup, and **Inngest webhooks** for automated user data synchronization and event-driven processing.
- Integrated comprehensive social media features including **user profiles, post creation/sharing, real-time commenting, like/reaction systems, social connections**, and **personalized feeds** with **successful deployment** ensuring optimal user engagement.

**Chatting Application | using MERN**

[GitHub](#) | [Preview](#)

- Developed a real-time chat application using **MERN stack** with **DaisyUI theming**, featuring **live messaging, online user filtering, image sharing**, and **profile management** with modern, responsive UI design.
- Engineered robust backend infrastructure with **Express.js REST APIs, Socket.io** for real-time bidirectional communication, **MongoDB** for message/user storage, **JWT authentication**, **file upload handling**, and **user presence tracking** ensuring scalable chat functionality.

**50+ Projects**

[GitHub](#)

- Built **50+ web applications** with **HTML, CSS, JavaScript, MERN stack**, and **modern JavaScript frameworks**, showcasing comprehensive **web development** expertise.

## Programming Achievements

*Solved 500+ Data Structures and Algorithms problems on LeetCode, demonstrating strong problem-solving skills and coding proficiency.*
